Give the Gift of Luxury and Comfort

This Mother's Day and Father's Day, help mom and dad get "Beach Ready" with indulging treatments

By Wendy O. Dixon

Even while staying in beautiful Seaside, mothers tend to be pre-occupied with organizing their family activities and putting everyone else first. What better way to help her feel like No. 1 than a day at Beach Ready Spa?

Make mom feel like a queen this Mother's Day by booking an appointment at Beach Ready Spa in Seaside, a favorite place for a tranquil retreat from the world. The full-service spa offers a wide spectrum of wellness treatments including massage, body treatments, facials, manicures, pedicures and waxing.

From the moment you enter Beach Ready Spa, you're greeted with complementary tea, flavored water, mimosa or champagne. The spa offers several massage experiences ranging from relaxation, deep tissue, medical/sports and maternity to foot massage and couples massage. You can get mom beach ready with the spa's signature service — an exotic hot shell massage. Using ultra-heated tiger clamshells from the Philippines, this massage relaxes the muscles and invigorates the body with a light pressure and tropical scented oils.

Don't forget about dad for Father's Day. He can enjoy some pampering with his own spa treatment. All of Beach Ready's services are available to men and women. Mom and dad can even enjoy several services together. The couples massage is a relaxing treatment for two, in one room with champagne and chocolates. The couples pedicure includes a relaxing paraffin treatment that leaves your feet feeling soft and supple.

As part of Beach Ready's manicure services, the Shellac manicure provides a long-lasting, chip-proof manicure that dries instantly with revolutionary UV technology. With no drying time

needed, the Shellac polish is perfect for someone who needs to get back to work immediately after leaving the spa, or a vacationer who wants to head straight to the beach. The Shellac dries to a hard shell, sort of like an impenetrable force field of pretty color. And the spa pedicure, made all the more indulgent with a gentle massage and exfoliating sugar scrub, is an ideal gift for sandal season.

After a day at the beach, nothing feels better than a cooling shell facial. Experience soothing relief from sun exposure with Beach Ready's tiger clam shells, cooled to relieve the skin and tighten pores, a wonder for those with rosacea and sensitive skin.

Beach Ready has its own private label of locally made beauty products with scents of lemongrass, milk and honey or pineapple orange. Other products include the Malie Organics luxury spa collections. The Beach Ready Spa shea butter salt scrub contains essential oil and vitamin E, making it an ideal gift for mom. New to the spa is Paisley Brand Tea, an organic line of teas in a variety of flavors including Earl Grey and peppermint.

Local residents can enjoy a 20 percent discount on spa services. Reservations are recommended to ensure availability, and gift cards are available for purchase over the phone or in house. Book an appointment at Beach Ready Spa for a body treatment, massage, facial or waxing. These treatments are just a sampling of the extensive line of services available.
